

February 3, 1984

LR 227

figure out some other way to do it. Senator Chambers, we have always had these great understandings and you are being impossible today.

PRESIDENT: Senator McDonald, what do you have to say on this amendment?

SENATOR MCDONALD: Senator Chambers, could you yield to a question, please.

PRESIDENT: Senator Chambers and Senator McDonald.

SENATOR CHAMBERS: Yes, I will.

SENATOR MCDONALD: So I understand this then, you are saying that on line 20 strike the word "or" and put "and" in its place. Is that correct?

SENATOR CHAMBERS: Yes, the second "or". So that between the words "blighted" and "substandard" there would be the word "and" instead of "or", and that is all I am doing. And if people mean what they say then that amendment won't hurt what they are alleging their intent is.

SENATOR MCDONALD: Well I have been told that...I don't have any problem with adding the word "and" and striking the word "or" and I have also been told that substandard could be stricken out of it if necessary, but I don't have a problem with your amending the bill.

PRESIDENT: Is there further discussion on the Chambers amendment? There is an amendment to the Chambers amendment on the desk.

CLERK: Mr. President, Senator Newell would move to amend the Chambers amendment to strike "and substandard."

SENATOR NEWELL: A-n-d, and. I write a little funny but that is really the intent.

SENATOR CHAMBERS: Point of order.
